I. Background of the Project

The Improving Inland and Marine Fishery Governance (IIMFG) (Jan 2020 –Dec 2023) Project is funded by LIFT. It aims to improve Fisheries Governance, Policy Research & Education in Rakhine State & Ayeyarwaddy, Yangon, and Thanintharyi Regions. It is the extended program of the 1st Strategic Partnership Agreement (SPA-1) between LIFT and NAG, from 1st April 2017 to 31st December 2019, focused on improving co-management of Ayeyarwaddy’s Wetland Resources.

There are two goals of the project:

Goal 1: Capable, sustainable and influential national CSOs working at scale on all facets of small-scale fisher livelihoods and decent work in Myanmar’s fishery sector.

Goal 2: An informed LIFT Board and management engaging proactively with civil society for strengthened resilience and sustainable livelihoods in fisher and riparian communities.

There are six objectives of the project:

- 1) Improved Community Fisheries Co-management
- 2) SSF Livelihood, Value chains and SMEs
- 3) Effective Fisheries Partnerships and Networks
- 4) Improved Legal Frameworks
- 5) Improved Collaboration with DoF
- 6) Improved Research into Political, Social, Economic and Environmental Issues

II. Objectives

The Objective of the Ecosystem Approach to Fisheries Management (EAFM) Training is to conduct as capacity strengthening activity to members of Ayeyarwady Regional Fisher Network (ARFN) and Fisher Development Association (FDA). The training objectives mainly focuses on to understand the concept and the need for an Ecosystem Approach to Fisheries Management (EAFM) and to acquire tools, knowledge and skills to develop, implement and monitor an 'EAFM plan' to manage fisheries sector more sustainably.

The training expects the training recipients of FDA and ARFN members to consider the ecosystem approach fishery management as essential part for better fishery management system and to develop the action plan for practicing the methods and habits of ecosystem approach fishery management in their regions.

III. Scope of Work

The scope of the consultant includes the following

- Design and develop training modules and session plan
- Deliver online trainings and workshops
- Methodology and Tools for developing Action Plan
- Submit training report including video clips, slides and relevance training materials

IV. Supervision and Quality Control

The consultancy service is directly supervised by Program Manager of Delta & Costal Zone. The consultant needs to regularly coordinate Program Manager for design, planning & implementation of Ecosystem Approach to Fisheries Management Training Program.

V. Deliverables

The key deliverables of the consultancy service are:

- Training Modules & Training Session Plan
- Training Methodology and Work Plan
- Training Report together with video clips, slides and relevant materials
